2017 Annual Report to the School Community

School Name: John Fawkner Secondary College

School Number: 8894

- All teachers at the school meet the registration requirements of the Victorian Institute of Teaching (www.vit.vic.edu.au).
- The school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2017 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- The school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 Child Safe Standards, Managing Risk of Child Abuse in School.

Attested on 04 April 2018 at 09:19 AM by Mark Natoli (Principal)

- All teachers employed or engaged by the school council meet the registration requirements of the Victorian Institute of Teaching.
- To the extent that the school council is responsible, the school meets
 prescribed minimum standards for registration as regulated by the Victorian
 Regulation and Qualifications Authority (VRQA) in accordance with the
 Education and Training Reform (ETR) Act 2006. This includes schools granted
 an exemption by the VRQA until 31 December 2017 from the minimum
 standards for student enrolment numbers and/or curriculum framework for
 school language program.
- To the extent that the school council is responsible, the school is compliant
 with the Child Safe Standards prescribed in Ministerial Order No. 870 Child
 Safe Standards, Managing Risk of Child Abuse in School.

Attested on 27 April 2018 at 06:37 AM by Raelene Nevill (School Council President)

About Our School

School Context

John Fawkner College is located in Fawkner, which is part of the Hume Moreland network of schools. Established in 1956, the school was closed in 2009 and reopened in 2010 as part of Project Excellence. Aspects of this initiative aimed to improve enrolments, reputation, wellbeing and achievement across the College. After the 2017 school review, it was identified that in each of these areas there is still work to be done. The Student Family Occupation and Education (SFOE) Index of 0.65 and has been reducing each year indicating a change in the demographic of students at the College.

Many of these students attend the College to participate in the Melbourne City College of Football, whilst many students from local primary schools travel past us to other schools. The school has 391 enrolments in 2018. The student community is diverse, with over 40 different nationalities represented and approximately 11% are EAL.

This school has 45.6 equivalent full-time staff: 3 principal class, 30.2 teachers and 12.4 Education Support Staff.

In late 2017 John Fawkner re-visioned the College values with input from all stakeholders. The revised vision and values promote Respect, Commitment, Academic Excellence and Continuous Improvement. The College vision is: "John Fawkner College takes pride in uniting learners from a diverse community within a respectful and adaptive environment that fosters enjoyment in learning and the motivation to achieve excellence." They challenge students to take control of their learning, and to improve their performance across a broad curriculum. A focus on excellence and equity, and on being a high performing learning community in which teachers use positive relationships to deepen their knowledge of students are underpinning features of the school. The school seeks to develop young people as individuals, learners and contributors.

The key challenges for John Fawkner College include unfinished business in relation to previous strategic plan:

- Building and maintaining consistency of student achievement
- Ensuring consistency of teacher practice including data analysis to improve student achievement
- Developing and implementing an agreed curriculum.
- Improving relative growth in NAPLAN data sets
- Improving staff opinion data

Framework for Improving Student Outcomes (FISO)

The College underwent a Peer Review in late 2017. From that report came the following recommendations:

- Develop and communicate the whole college vision and values, emphasising the College's focus on high expectations and continuous improvement
- Build the instructional leadership capacity of all in leadership roles, including the knowledge and capabilities of emerging/aspirant leaders and PLT leaders, so that all leaders are enabled to lead change and contribute their full potential to school improvement efforts and further support the development of the College's performance and development culture.
- Establish a community of reflective practitioners focused on continuous school improvement.
- Build teacher and PLTs knowledge of what constitutes practice excellence, including their capacity to differentiate curriculum and teaching
- Develop and implement a consistent whole school approach to the collection, analysis and effective use of data and build data literacy in the staff
- Develop a whole school instructional model that includes agreed pedagogical approaches and integrates high impact teaching strategies, ensuring consistent implementation of the model across the school.
- Create opportunities for students to develop a 'growth' mindset and be involved in their learning through active student voice
- Increase high expectations of all members of the school community in learning, attendance, engagement, wellbeing and behaviour
- Strengthen teacher and student capacity to deliver feedback

In 2017 and 2018 our priority on Building Practice Excellence will allow us to focus on the extent to which our teaching teams collaborate regularly and how they interact to address common issues regarding student learning (curriculum, assessment and instruction) – in our case the improvement in Literacy and Numeracy. Our second priority Instructional and Shared Leadership will enable us to focus on several strategies including:

- Improving the capacity of staff to effectively use the JFC Instructional Model and Positive Learning Framework
- Developing capacity of staff to differentiate delivery of curriculum across all domains.
- Developing and embedding a whole school approach to support improvement in student literacy using literacy for learning
- Develop and review the College's curriculum accreditation system and education programs.
- Refining the reporting of growth to parents in Numeracy and Literacy.
- Developing the capacity of staff to utilise and analyse data to identify student understanding.

Achievement

In many areas, the school performance data for 2017 indicates that our school is performing at or lower than state averages. Further, teacher judgements indicate the college is performing lower than many similar schools. Our VCE results in 2017 have reduced from previous years, however our students are still achieving higher than that of similar schools. This achievement in VCE over the previous 4 years has remained positive.

It is pleasing to note that the 2017 NAPLAN results for the Years 7-9 learning gain compares favourably with similar schools especially in Numeracy and Reading were students are at or above state mean. This data also indicates that students continue to experience difficulties in their literacy skills and whilst student learning has improved, more rapid improvement is required for all students to reach the expected levels. This continues to be the primary focus of the College.

Key Improvement strategies have been put in place with resources devoted to Literacy and Numeracy intervention programs and the implementation of the Literacy for Leanning Program to support teachers to address these needs.

The improvement of these data sets in 2018 will be assisted by the adoption of a common and agreed instructinoal model at JFC along with a strong emphasis on the use of data to inform teaching and student growth.

Our PSD program continued to provide students with modified learning to ensure the attainment of individual learning goals, however a more explicit focus is required here to increase achievement. The College has begun to provide extra support to recently arrived non-English speaking students through additional EAL support classes and the after school Homework Club will also assist with this work.

Engagement

In mid 2017 considerable time and work was devoted to producing and enforcing a robust Attendance Policy. These efforts will be reflected in 2018 data sets. The attendance data for the College remains high and will be a key focus of our work moving into 2018 and beyond. Considerable effort is needed in this space along with the implementation of a Positive Learning Framework to increase student engagement at JFC. This along with a coordinated study skill and homework sessions that supports improved student attendance, pastoral care outcomes and increased teacher contact, are all aimed at improving positive outcomes in student engagement and learning. With the support of the Minter Ellison and ABCN Programs we have placed considerable emphasis on developing young leaders, who play a major role in coordinating both school and community activities.

Our annual performing arts evening "JFC has Talent" gives all students regardless of age the ability to perform in front of audiences and many students have developed their talents, self esteem and confidence through this College wide event.

The College is also completing a curriculum refresh which aims to maximise engagement for every student whilst providing meaningful pathway opportunities into senior secondary education. This will also cater for high achievers and allow us to fast track pathways to some careers.

Whilst student connectedness to school and their opinion of bullying at JFC is similar to like schools, we know that there is still work to be done. Student opinion of teacher effectiveness and motivation and interest are something to improve.

Wellbeing

Overall our student wellbeing data is positive when combining data sets across years 7 to 12. Students indicate that they feel safe and relate to each other in a positive manner. Indictors also show that students feel that staff care about their wellbeing and are proactive in providing support for students. However, we do know that when we look at individual year levels there is significant variation in how students feel supported at school. This is particularly relevant to years 8 and 9 and will be a focus in 2018.

The College review failed in the area of the Child Safe Standards. The College will be required to critically evaluate current practice and policies and implement changes, as deemed appropriate to these standards. In light of this, the College has well re-developed comprehensive Wellbeing structures and programs so to cater for the requirements of the different student cohorts and a professional and experienced Wellbeing team.

The implementation of SRC initiatives and continuation with a range of lunchtime activities, including sports, games and clubs, including the Homework club which is highly popular and appreciated by both the community (particularly the local Primary school children) and parents. The College Council has continued to ensure that the learning environment is well maintained and supports a productive learning culture. As a result, considerable resources were allocated towards the improvement of the schools infrastructure.

For more detailed information regarding our school please visit our website at www.jfc.vic.edu.au

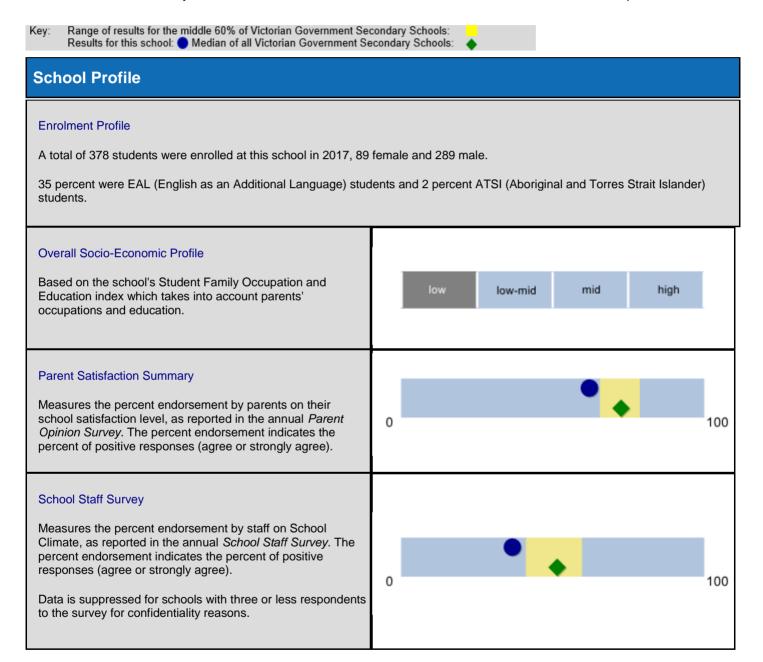

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

Members of the community can contact the school for an accessible version of these data tables if required.

Achievement	Student Outcomes	School Comparison
Teacher Judgement of student achievement Percentage of students in Years 7 to 10 working at or above age expected standards in: • English	Results: English	Similar
Mathematics For further details refer to How to read the Annual Report.	Results: Mathematics	Similar

Achievement	Student Outcomes	School Comparison
NAPLAN Year 7 The percentage of students in the top 3 bands of testing in NAPLAN at Year 7. Year 7 assessments are reported on a scale from Bands 4 - 9.	Results: Reading Results: Reading (4-year average) Results: Numeracy Results: Numeracy 100 Results: Numeracy (4-year average)	Being the first year of secondary school, Year 7 NAPLAN is not used for the School Comparison.
NAPLAN Year 9 The percentage of students in the top 3 bands of testing in NAPLAN at Year 9.	Results: Reading	Similar
Year 9 assessments are reported on a scale from Bands 5 - 10.	Results: Reading (4-year average)	Similar

Achievement	Student Outcomes	School Comparison
NAPLAN Learning Gain Year 5 - Year 7 Learning gain of students from Year 5 to Year 7 in the following domains: Reading, Numeracy, Writing, Spelling & Grammar and Punctuation. NAPLAN learning gain is determined by comparing a student's current year result to the results of all 'similar' Victorian students (i.e. students in all sectors in the same year level who had the same score two year prior). If the current year result is in the Top 25 percent, their gain level is categorised as 'High'. Middle 50 percent, is 'Medium'. Bottom 25 percent, is 'Low'.	Reading	NAPLAN Learning Gain does not require a School Comparison.
NAPLAN Learning Gain Year 7 - Year 9 Learning gain of students from Year 7 to Year 9 in the following domains: Reading, Numeracy, Writing, Spelling & Grammar and Punctuation. NAPLAN learning gain is determined by comparing a student's current year result to the results of all 'similar' Victorian students (i.e. students in all sectors in the same year level who had the same score two years prior). If the current year result is in the Top 25 percent, their gain level is categorised as 'High'. Middle 50 percent, is 'Medium'. Bottom 25 percent, is 'Low'.	Reading	NAPLAN Learning Gain does not require a School Comparison.
Victorian Certificate of Education (VCE) Mean study score from all VCE subjects undertaken by students at this school. This includes all Unit 3 and 4 studies (including those completed in Year 11) and any VCE VET studies awarded a study score. The maximum student study score is 50 and the state-wide mean (including government and non-	Results: 2017 0 Results: 2014 - 2017 (4-year average) 0 50	Higher Higher

Students in 2017 who satisfactorily completed their VCE: 85% Year 12 students in 2017 undertaking at least one Vocational Education and Training (VET) unit of competence: 98%

VET units of competence satisfactorily completed in 2017: 76%

Victorian Certificate of Applied Learning (VCAL) credits satisfactorily completed in 2017: 68%

Engagement	Student Outcomes	School Comparison
Average Number of Student Absence Days Average days absent per full time equivalent (FTE) student per year. Common reasons for non-attendance include illness and extended family holidays. Absence from school can impact on students' learning School Comparison A school comparison rating of 'Higher' indicates this school records 'less' absences than expected, given the background characteristics of students. A rating of 'Lower' indicates this school records 'more' absences than expected. Average 2017 attendance rate by year level:	Few absences <> Many absences Results: 2014 - 2017 (4-year average) Few absences <> Many absences Few absences <> Many absences	Lower
Student Retention Percentage of Year 7 students who remain at the school through to Year 10.	Results: 2017 Results: 2014 - 2017 (4-year average)	Similar
Exit Destinations Percentage of students from Years 10 to 12 going on to further studies or full-time employment. Note: This measure uses data from the previous year. Data excludes exit destinations recorded as 'Unknown'.	Results: 2017 Results: 2014 - 2017 (4-year average)	Higher Similar

Wellbeing	Student Outcomes	School Comparison
Students Attitudes to School - Sense of Connectedness Measures the percent endorsement on Sense of Connectedness factor, as reported in the Attitudes to School Survey completed annually by Victorian Government school students in Years 4 to 12. The percent endorsement indicates the percent of positive responses (agree or strongly agree).	Results: 2017 100	Similar
Students Attitudes to School - Management of Bullying Measures the percent endorsement on Management of Bullying factor, as reported in the Attitudes to School Survey completed annually by Victorian Government school students in Years 4 to 12. The percent endorsement indicates the percent of positive responses (agree or strongly agree).	Results: 2017 100	Similar

How to read the Annual Report

What does the About Our School section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

Achievement

- student achievements in:
 - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
 - English and Mathematics for teacher judgements against the curriculum
 - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

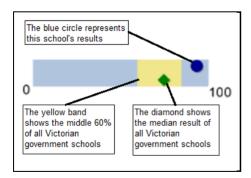

Engagement

- student attendance and engagement at school
 - how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

Wellbeing

- Attitudes to School Survey (ATOSS)
 - Sense of connectedness
 - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

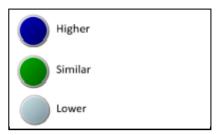

What does School Comparison refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are 'Similar' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have 'Higher' performance. Some schools have 'Lower' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at:

http://www.education.vic.gov.au/school/parents/involve/ Pages/performance.aspx

What does 'Data not available' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

What is the Victorian Curriculum?

The Victorian Curriculum F–10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').

Financial Performance and Position

Financial performance and position commentary

In 2017 the College completed the year with a planned financial surplus. As a small school we are dependent upon state funding for completion of any capital works projects and maintenance works. The resulting surplus was a result of carrying over the 2016 surplus.

Equity funding has continued this year and the college continues to employ specialist Literacy and EAL staff as teachers and teacher coaches, providing enhanced teacher capacity and improved student performance monitoring.

Financial Performance - Operating Statement Summary for the year ending 31 December, 2017

Financial Position as at 31 December, 2017
